PROFESSIONAL EXPERIENCE

Freelance Web Developer & Designer   2018–Current
Self-Employed   *Digital Nomad*
- Designed a new layout and implemented it for an e-Commerce website with over 3,000 subscribed customers
- Delivered React web app for a niche branding consultancy that boosted new client intake for the consultancy by 20%
- Migrated website design and associated data from boutique CMS to WordPress with programmatic MySQL queries

Software Developer   2016–2018
Booz Allen Hamilton   *Washington, DC*
- Led design and development efforts of a content management system for 2,000 initial users and Booz Allen's healthcare sector's first use of GraphQL
- Developed client user interface features using React and TypeScript for a Bit Data search engine in the health industry with 10,000 users
- Redirected intake of data for source and size-agnostic Big Data UI prototype with Booz Allen's Strategic Innovation Group using Apache NiFi

Software Development Intern   2015–2016
a2z, Inc.   *Columbia, MD*
- Improved PM workflow by developing 5 internal user interfaces
- Resolved 43 bugs and errors on base web application
- Implemented over 200 customizations of web pages and SQL reports for clients

Advisory Consultant   2014–2015
Deloitte   *McLean, VA*
- Secured 4 client systems by recommending security improvements
- Discovered deficiencies in 15 sub-systems via sampling through SQL
- Presented findings of audits to clients' management and executives
